Subject: World Heritage Tour (World Heritage Sites in panography)

TO WHOM IT MAY CONCERN:

The Organization of World Heritage Cities is pleased to support the WHTour.org initiative, a non-profit organization documenting the UNESCO World Heritage List in panographies – 360-degree imaging. This initiative was undertaken by Mr. Tito Dupres, assisted by his wife, Ms. Bijuan Chen, professional photographers.

This contribution will make it possible to promote world heritage while raising awareness of the conditions of conservation and the importance of insuring the preservation of the sites inscribed on UNESCO's World Heritage List.

We are convinced that the world heritage network could help in carrying out this project. Consequently, we would appreciate your assistance to facilitate the taking of these pictures.

We thank you in advance for your invaluable contribution.
